

## 2013/14 Statewide Tobacco-Use Prevention Education (T.U.P.E.) Cohort F Grant Online Annual Report

---

Tobacco-Use Prevention Education (TUPE) funds support health education efforts aimed at the prevention and reduction of tobacco use. The TUPE program provides funding for programs in grades six through twelve through a competitive application process. Funds are awarded to local educational agencies that propose to replicate evidence-based, effective programs. TUPE grantees must implement instructional, youth development, intervention and cessation activities for students. Grantees may also implement supplemental activities and special events that reinforce the required program.

All local education agencies certified as having a fully implemented tobacco-free school district board policy are eligible to apply for funding. Programs are locally developed, but are expected to align with the Master Plan of the Tobacco Education and Research Oversight Committee, the Centers for Disease Control and Prevention's (CDC's) Guidelines for School Health Programs to Prevent Tobacco Use and Addiction, and the recommended California guidelines for tobacco prevention in Getting Results. ^

The purpose of the TUPE program is to reduce youth tobacco use by helping young people make healthful tobacco-related decisions. Students receive research-validated tobacco use prevention instruction and activities that build knowledge as well as social skills. Students take part in youth development strategies that involve youth in advocating for a tobacco-free California and becoming tobacco prevention leaders. Collaboration with community-based tobacco control programs is an integral part of program planning. The school, parents, and the larger community must be involved in the program so that students will be aware of a cohesive effort and concern for their health and, consequently, their ability to succeed in school.

Cohort F Competitive TUPE Grantees, funded from 2013-14, are required to complete an annual online survey, in addition to other reporting requirements. Via the online survey grantees provided information about delivering instruction to the general population, youth development, intervention activities, cessation programs, services to targeted populations, staff development, parent training, and community involvement. The aggregated results of 16 of the 17 funded programs are displayed in the tables that follow. The list of the participating grantees is located in Appendix A.

---

## Executive Summary

---

Listed below are highlights of the Annual Report information submitted by the TUPE Grantees:

- The most often used research-validated/evidence based programs are *Project ALERT* (6), *Minnesota Smoking Prevention Program* (5) and *Botvin's Life Skills Training* (4). Nine grantees indicated they implemented one research-validated/evidence based programs, seven grantees implemented two or more programs listed on the Annual Report approved program list. (See Table 1)
- The majority of students (74%) that received a research-validated/evidence based program were in the 7, 8 or 9<sup>th</sup> grade. (See Table 2)
- The most common non-research based validated programs employed by grantees was *Teens Tackle Tobacco* (74% of students). (See Table 3)
- The most popular non-curricula activities or strategies offered were *Red Ribbon Week* (41% of students), followed by *Great American Smoke Out* (18%). (See Table 4)
- Most popular youth development activities were *Youth Involvement Anti-Tobacco Advocacy* (36%) followed by *Media Literacy* (32% of students) (See Table 5)
- Of the 905 students who were involved in intervention programs; 77 percent were involved in *Teen Tobacco Users (TEG)* and 17 percent were involved in *Craving Identification and Management (CM)*. (See Table 7)
- Of the approximately 9,500 students that were involved in cessation programs, most utilized the *California Smokers' Helpline* (95%). (See Table 9)
- Parenting or pregnant minors were identified (657) and 65 percent were served. Eleven grantees had both a school-based program and a community program, while two programs offered school based programs only. Three grantees did not identify any parenting and/or pregnant minors that needed services. (See Table 11)
- Eighty-seven percent of classified staff and 93 percent of certificated staff were trained in general TUPE information. (See Table 12)
- Almost 99,000 parents received general TUPE information. (See Table 13)
- Grantees mostly collaborated with local educational agencies on youth development 87%, local tobacco control coalition planning meetings (81%), curriculum implementation, cessation activities, and intervention activities (75%). Grantees also worked, to varying degrees, on these activities with their local public health agency, local governmental agencies, and local non-governmental agencies. (See Table 14)

## General Population Instruction

---

Table 1  
 Research-Validated/Evidence Based Programs  
 from the Approved Program List

Number that selected each program	Research-Validated/Evidence Based Programs
4	Botvin's Life Skills Training
1	Keepin' It Real
5	Minnesota Smoking Prevention Program
6	Project ALERT
0	Project Northland
0	Project SUCCESS (Schools Using Coordinated Community Efforts to Strengthen Students)
9	Project TND (Towards No Drug Abuse)
0	Project TNT (Towards No Tobacco Use)
0	SPORTS
0	State-Wide Indian Drug Prevention Program
0	No Program Selected

## Services to Targeted Populations

---

### *Pregnant Minor/Minor Parent Services*

Table 11  
Number of Parenting and/or Pregnant Minors Identified and Served

Parenting and/or Pregnant Minors	Number of students
Number of parenting and/or pregnant minors identified:	657
Number of parenting and/or pregnant minors served:	424
Number of parenting and/or pregnant minors served in school based programs:	424
Number of parenting and/or pregnant minors referred to community programs:	490

*Note: Reference question 28 of the Annual Report*

## Staff Development or Tobacco-use Prevention Training

---

Table 12  
 Number of Classified and Certificated Staff  
 Receiving Training by Type of Training

Training Type	Number of staff	
	Classified	Certificated
Trained to deliver program curriculum	23	103
Trained to deliver youth development strategies	26	120
Trained to deliver intervention strategies	36	54
Trained to deliver cessation strategies	28	39
General TUPE information	744	4,472
Total:	857	4,788

*Note: Reference question 29 of the Annual Report*

## Parent Training

---

Table 13  
Number of Parents Receiving Training by Type of Training

Training Type	Number of parents receiving each type of training
General TUPE information	98,780
If parents received training other than general TUPE information, the grantee provided the type of trainings or information provided and the number of parents participating in each activity.	
Parent Education and Awareness	284
Total:	99,064

*Note: Reference questions 34 and 35 of the Annual Report  
~ Grantee unable to provide number*

## Community Involvement

Table 14  
Number and Types of Activities Offered by Grantees in Collaboration  
with Local Educational Agencies, Community Agencies, and Other Agencies

Activity Type	Services provided by							
	Local Educational Agency		Local public health agency		Local governmental agency		Local non-governmental organization (NGO)	
Curriculum implementation	12	75%	7	44%	3	19%	7	44%
Youth Development activities	14	88%	15	94%	6	38%	14	88%
Cessation activities	12	75%	7	44%	2	13%	7	44%
Intervention activities	12	75%	10	63%	6	38%	8	50%
Local tobacco control coalition planning meetings	13	81%	14	88%	10	63%	14	88%

Note 1: Reference question 31 of the Annual Report

Note 2: Grantees could select several options; percent columns will not add up to 100%

Note 3: Percentage based on 16 grantees
